PROFILE SUMMARY

Frontend & Full-Stack Developer with **7+ years of experience** building scalable web applications using **React, Angular, .NET Core, and Node.js**. Strong background in designing modular UI components, developing REST APIs, integrating authentication, and working with cloud services (Azure & AWS). Experienced in delivering enterprise-level software across finance, healthcare, education, and event-tech domains.
A proactive team player with hands-on expertise in end-to-end development, performance optimization, and solving complex technical problems.

CORE TECHNICAL SKILLS

Front-End Development: Angular, React, Redux, TypeScript, JavaScript, Tailwind, ,HTML, CSS3, Bootstrap, RxJS, NgRx

Back-End Development Node.js, next. js, Express.js, .NET Core (Web API),MongoDB, SQL, MySQL

Web Services: REST API, JWT authentication, Microsoft Easy Auth, MSAL

Cloud & DevOps: Azure Functions, Azure Form Recognizer (Document Intelligence),
AWS Lambda, CloudFront, S3, SES

Tools: Git, Postman, Swagger, Jira, Confluence, VS Code, Visual Studio

---

PROFESSIONAL EXPERIENCE

SENIOR SOFTWARE ENGINEER   Aug 2023 – Present
Bermen March, New York, United States(Remote)
Project: BMAzureFuncAI (AI-Powered Document Automation Platform)
- Developed an **AI-driven document processing and reconciliation system** using Azure Form Recognizer.
- Designed and implemented a **web dashboard** with spreadsheet-style data comparison views.
- Built pipelines for **automated data extraction**, field mapping, and multi-source data reconciliationDocument model mapping and configuration
- Developed **custom configuration modules** for training and deploying document AI models.
  Improved processing efficiency and reduced manual verification time significantly.

SENIOR SOFTWARE ENGINEER   Aug 2023 – July 2025
Blue Lynx, Qatar(Remote)

  Hospital Management System (HMS)
- Developed a full-scale HMS covering patient management, appointments, billing, and clinical workflows.
- Built modular Angular components, advanced forms, and service-driven architecture.

- Integrated secure REST APIs, implemented validation, caching, and frontend performance optimization.

Live Tutoring Platform
- Developed interactive tutoring modules with real-time components and user management features.
- Implemented backend features in Node.js and optimized API response times.

SENIOR SOFTWARE ENGINEER   Dec 2021 – July 2023
H&R Block, Trivandrum
WebCDB – Tax Office Management Application
- Developed enterprise features for office management using **Angular**.
- Created reusable UI components, dynamic forms, and implemented Microsoft Easy Auth.
- Improved data search performance and helped scale the platform for global users.
- Worked on Azure deployments and API integrations.

SENIOR SOFTWARE ENGINEER   April 2021 - Dec 2021
Tiltlabs Consultancy Services Pvt Ltd, Trivandrum
Virtual Event Management System
- Built a modern event management platform using Angular & Node.js.
- Integrated AWS CloudFront, API Gateway, and Lambda for a serverless architecture.
- Implemented custom authentication modules and optimized API routes.
- Designed responsive UI and improved user experience across devices.

SENIOR SOFTWARE DEVELOPER   Nov 2018- Feb 2021
WIEAW Technologies
- Developed Live Musical Class   Application(MongoDB,Expresss,Angular,Node)
- Qatar Bima Insurance portal(Angular,Node ,Mysql)
- Katara Club Qatar(React,Php)
- Integration of bulk SMS gateway KAP SYSTEM
- AWS S3 bucket integration
- AWS Cloudfront integration
- AWS Simple Email Service (SES) integration
- MongoDB Indexing

EDUCATION

Diploma In Computer Engineering
Computer Science and Engineering, 2010 - 2013
